A New Beginning
MAPLE TRAIL
1985

Editor's Note

When I look back on the year I see confusion and total chaos. All of the responsibility of trying to juggle one-hundred different projects that were all due yesterday and required 110%. But through everything I never forgot the challenge I made to myself, to make you the students, proud of every page in the book. My goal was to improve and to give you the best yearbook ever. I think we did it.

The staff, whoever they may be, were great. They tolerated my strange work habits and all of the late night hours. I didn't have all the answers, and usually I asked most of the questions. But, my friends helped me handle the pressure of deadlines, encouraged, criticized, and supported me in everything, well almost everything I wanted to do.

I would like to thank Dr. Doty for his guidance and understanding, my family for support and encouragement, and God for the strength he has given me. Thanks again to the great people that were involved in producing the "Maple Trail."

It's not perfect but, it's a beginning!!

A New Beginning,

Campbellsville College has endured the test of time. Because of traditional beliefs the College's durability and maturity were often confused with being unprogressive. We didn't live in Co-ed dorms or have Friday night dances, but we did exist in an environment where we could live as individuals. Each class gave a little more spark to the everchanging campus; which brings us to — A NEW BEGINNING.

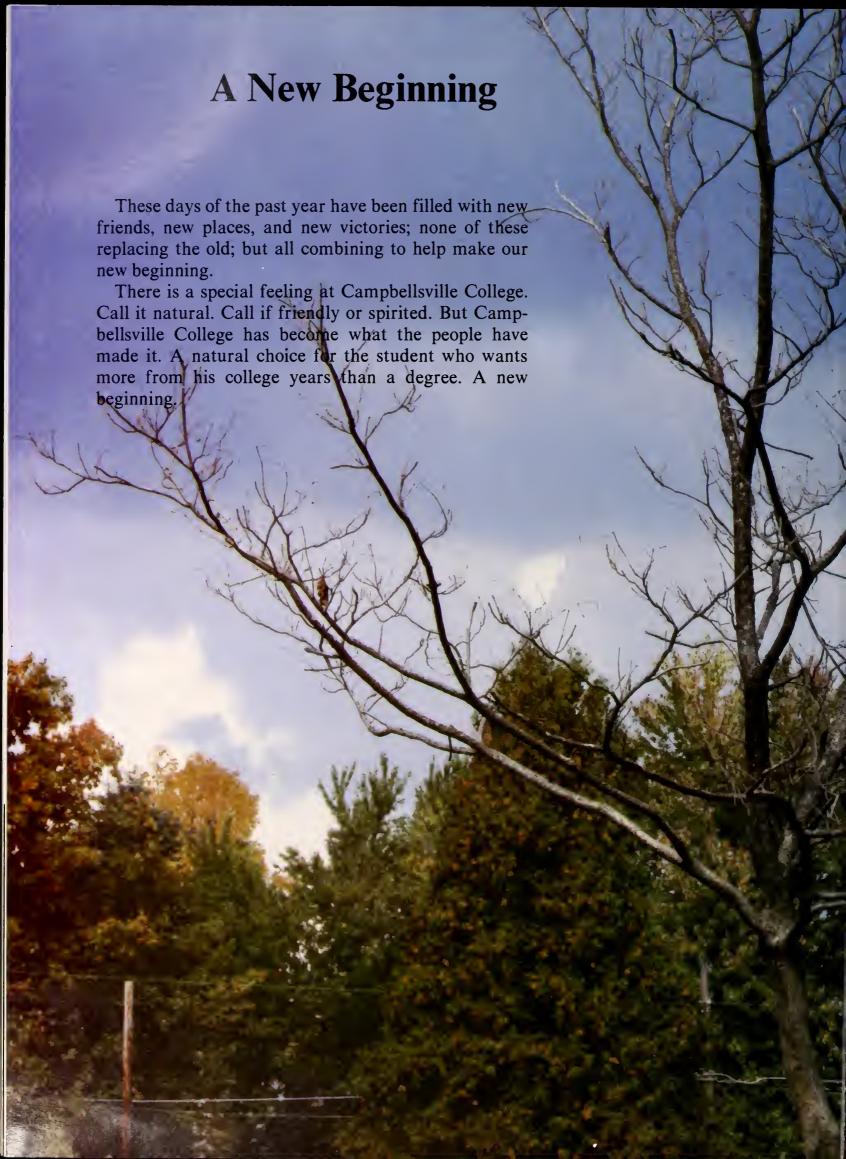

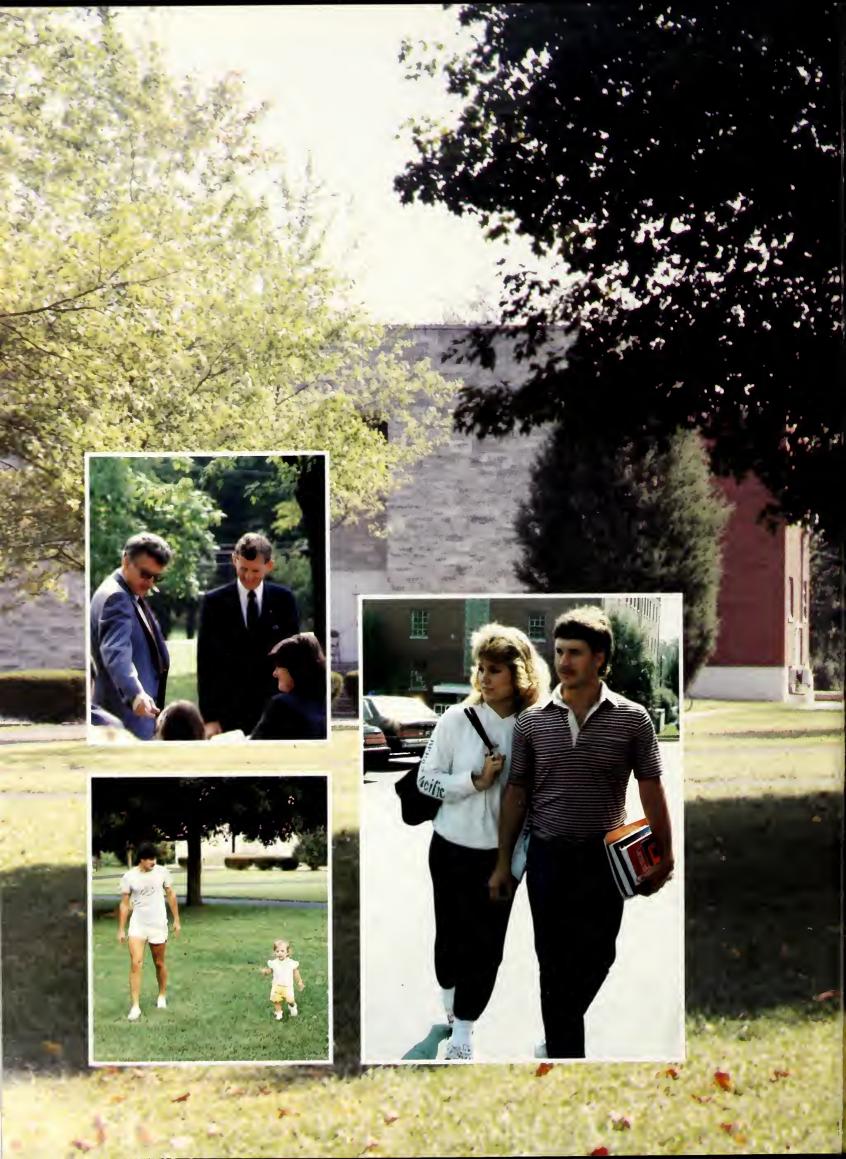

A New Beginning

The excitement of a new beginning brought final exams, championship games, and final performances. We dreamed but we also achieved. We spoke out for changes to help develop our own personalities. All of this time we were committed to our education and to strive for our final beginning.

A New Beginning

As students we left our mark on Campbellsville College. We reached our goals and expressed many of our fresh ideas. We were dedicated to be different; but through it all we gained more than we have given, and we present to you the following:

OUR NEW BEGINNING OF 1985.

Student Life

Fun and Games

The fall carnival is a time for clubs to raise money and a time for students to have fun and share with each other.

This year's carnival was held October 6. There were many different booths and plenty of entertainment.

Despite the cold weather, the carnival was still well-attended by students and faculty. The cold was probably felt most by Donna Wise, Sylvia Morris and others as they went under in the dunking booth, sponsored by the girls softball team.

The pony ride and petting zoo sponsored by the CMC, was a favorite among the children attending the carnival. The art club sponsored an art sale and cartoon drawings and as usual there was an abundance of food and drink booths.

Entertainment was provided throughout the day by the Dixie Land Band, the BSU puppets, crossties, a barbershop quartet and also Andy Cundiff and Marty Bailey. The carnival was a definite success.

Freshman Week

It's a week during which young women wear diapers, young men wear dresses and faculty and staff are being kissed at every turn. It's a week when seniors are the dominating force over freshmen. It's Freshman Week!

This years freshman week included such activities as the freshman-senior olympics, a talent show, an ice cream social, and the traditional dating game.

The week was a true success and participation by both seniors and freshmen was exceptional.

Of course, the old standard requirements prevailed. All freshmen were required to wear their beanies at all times. The week helped freshmen get to know each other as well as other students. To freshmen it may have been rough but for seniors, it was their last hurrah.

Dorm Life: A Great Experience

River At 1

Growing friendships, personality clashes, long hours of studying, and very few hours of sleep are all major components of dorm life. Open dorms is a cherished ritual for many Campbellsville students. Late night munchies, long lines for a sometimes cold shower, and quiet hours are all character builders in the dorm. Some of the best fun are in late night popcorn parties or the commonly found wrestling matches in South Hall. The beginnings of life in the outside world are born and nurtured in the college dorm.

Sophomore Marti McLean finds a comfortable reading position.

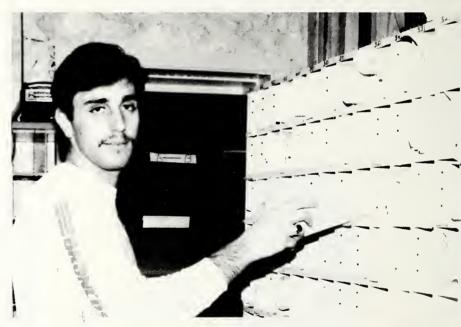

Workstudy

For many college students, working becomes a fact of life before graduation. Whether practical or financial assistance, work is a reality. Juggling work and study responsibilities demands a delicate balance of time and a mature attitude.

Work for Campbellsville students may be on campus workstudy of off-campus jobs. But whichever, the students are successful at both work and study.

Lunch

Students at Campbellsville enjoy lunch and dinner now more than ever. The new management has made some needed improvements in the cafeteria. Lunch offers a break from classes, where students can relax and get away from the pressures of the day. The cafeteria is a place to study, a place to socialize, and a place to catch M-TV. Everyone has enjoyed the big screen t.v., some of the food, and mainly the time to hide from classes.

Getting in Step With Fashion

It was a year to declare independence. Anything goes! Students created their own style with eropped pants, jelly shoes and bright fluoreseent colors.

The dressed up look was very dressed up with tailored pants, loose knit sweaters, and low-heeled pumps dominating the seene. For easual dress, pen-striped jeans and sweatshirts were seen often around eampus.

Button-down oxford shirts were onee again popular with both men and women and sweaters became wild and graphie.

Warmer weather brought bermuda shorts, tank tops, visors and erop tops. In short, it was a year to show your style and strut your stuff and deelare independence!

Sweaty Workouts Relieve Academic Tension

Campbellsville College can be exhausting. The mental workout required to get through a typical week of classes and exams are enough to leave a student feeling drained. Most Campbellsville students indulge in physical activities to ease the strain.

Students of varied abilities swim, shoot baskets, lift weights or play ping pong. Perhaps the best example of the exercise program at Campbellsville is the intramurals program. Whether an escape from classes, a needed form of exercise, or to relieve tension, exercise has become a necessity.

Special music was provided by Dr. Mark Bradley and Dr. Craig Hodges. The dedicatory address was given by Dr. Franklin Owen, executive secretary of the Kentucky Baptist Convention. The library was named for Edwin and Ovaleta Montgomery who donated a gift of 302,000 toward the completion of the library.

Campus Scenes

Campbellsville College is slowly adding new buildings and giving the campus a new look. Campbellsville is heading in a good direction with the new Montgomery library. It has been enjoyed by students and faculty. Campbellsville's Campus has in its own way beauty and tradition.

"You've Been Up Studying How Many Hours?"

Studying at Campbellsville has become a benefit/cost ratio where the benefit is the grade and the cost is the time and effort involved. With ever-increasing demands, time-budgeting has become the major method of getting everything done.

Labs, classes, and seminars are just a part of the studying regimen at Campbellsville. This does not mention the long hours in the library or at the computer center. Exam and term papers are a fact of life. The fact that they usually are due all on the same day is only standard operating procedure. When it's over; the exam taken, the paper typed, the design project juried; it's time to relax — but not for long. Soon enough it starts again.

Dating: The Great Mystery

There are great mysteries in the universe: black holes, Atlantis, and the state of dating and Campbellsville College. But at Campbellsville dating has reached the level somewhere between social probation and world war. Guys complain there aren't enough eligible women. Women complain guys would rather sit home all weekend than risk rejection from asking a girl out.

Dating at Campbellsville is a classic case of the student saying one thing and then doing another. It is not the rare phenomena that complainers make it out to be. From the standard "dinner and a movie" to the more special nights walking on the beach at Green River, dating is a part of every facet of student life at Campbellsville.

Maple Trail

With the combined leadership of Christy Cruise and Dr Doty, the 1984-85 Maple Trail Staff put the fifty-seventh volume of the college's yearbook together. The main objective of the staff was to improve and develop the yearbook. The real task was to put out a book that you would be proud to see and show to others. The production of the yearbook is an incredible job. To say the least, the finished product did not appear overnight. We tried to cover as many activities as possible and combine them in 168 pages. That is a story within itself. The people on these two pages want you to know that the long hours of work were put into a book just for your enjoyment. The Maple Trail tradition never stops, even with the staff changes.

The Spring Play was presented April 18, 19, and 20th at 8:00 in the Alumni Chapel. The Campbellsville College Harlequins Presented "The Sound Of Music." It was directed by Russ Mobley and Angelique Coakley. The play was dedicated to Laurie Maxi and Marilyn Sandusky. In spite of the tragic loss the play went on and it was a definite success.

"I'll let you have, for a little time — A child of mine," he said — "For you to love the while they live And mourn for when they're dead.

"It may be six or seven years — Or twenty-two or three; But will you, 'til I call them back Take care them for me?

"I'll bring their charms to gladden you And should their stay be brief — You'll have their lovely memories As solace for your grief.

"I cannot promise they will stay Since all from earth return. But there are lessons taught from there I want these children to learn. "I've looked the wide world over In my search for teachers true; And from the throngs that crowd life's lane I have selected you.

Now will you give them all your love, Not think the labor vain, Nor hate Me when I come To take them back again?"

I fancied that I heard you say:
"Dear Lord, Thy will be done
For all the joy thy Child shall bring
The risk of grief we'll run.

"We'll shelter them with tenderness We'll love them while we may, And for the happiness we've known We'll forever grateful stay.

"But should your angels call for them Much sooner than we've planned We'll brave the bitter grief that comes And try to understand."

Graduation

The Tassle Is Worth the Hassle

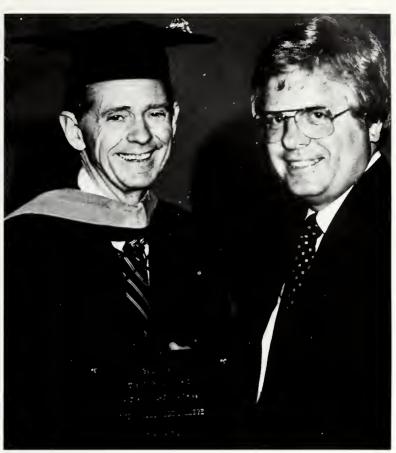

Four years of meeting challenges and it's finally here. Entering as a naive freshman unaware of what really lies ahead, students look forward to the magic day when they can thrust the sheepskin high in the air, proud to say, "I made it." For some there was an easy way out — parachuting right out of school. For others the pressure was hard to adjust to. For most, the competition was welcomed as a chance to better themselves. Fighting for a parking space, or pulling an all-nighter to finish up a final paper, the spirit of competition intensified the feeling of the "Campbellsville Experience." We may moan and groan about the obstacles stacked before us, but in the long run the stay was more than worth it.

Above: Peter Zondervan was the keynote speaker at the commencement exercise.

Above: Dr. Davenport presents J. Chester Porter with the distinguished alumnus award. Left: Katie Wilkerson receives her diploma from Dr. Davenport.

Right: Nikki and Scott Kelien celebrate graduation. Below: Doc Davis talks with graduate Wes Slaven.
